

**CITY OF LA PALMA
MEMBER OF THE CITY COUNCIL**

HENRY CHAROEN

AGE: 31

OCCUPATION: Business Analyst

La Palma's a great city and I am proud to live here. If elected to the City Council, my goal will be to protect our community. I will be committed to continuing the city's financial stability, sustaining police protection, protecting our property values, continuing beautification projects, strengthening community involvement, and maintaining our great quality of life. I will make sure to protect what we together have worked so hard to achieve while also preparing our city to meet any future challenges.

I want to make a difference. I care about what happens in our city and I continuously volunteer to help our community. My community involvement includes:

1. Community Activities and Beautification Committee
2. Kiwanis Club of La Palma
3. La Palma Days Planning Committee
4. Regularly attend City Council meetings

My financial work experience and education provides me with the background to help lead La Palma through the challenging years ahead. I received my MBA from UCI and my engineering degree from USC. I currently work in the mortgage industry, so I understand the importance of preserving strong property values.

I am dedicated to serving our citizens in maintaining our superior quality of life.

I am passionate about protecting our community.
